

## Compulaw to Deconstruct and Then Construct

Compulaw, a one-story office building that sits on the north side of Olympic adjacent to Ralph's will be demolished soon. It will be replaced by a two-story building with about twice the square footage and twice the parking of the old building.

The management of the building has met with Tract No. 7260 board members and discussed its plans. The entire board was delighted to learn that the giant billboard that sits on the property and faces Ralph's will be permanently removed during construction.
